

**BRUSA**

# DMC5 - High Power Inverter

The solid, powerful basis for electric motors

## Safe in all respects

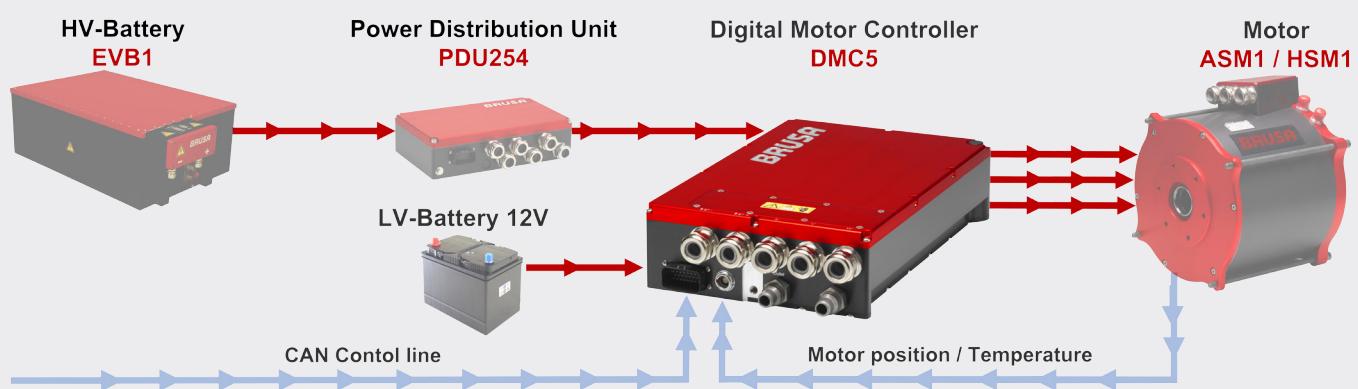

- Control of all types of three-phase motors
- Prepared design for ISU - integration according to ISO26262 (optional)<sup>1</sup>
- Passive interlock
- Fully galvanic separation between HV and LV
- High IP - protection

## Advanced technology

- Resonant SoftSwing® topology for minimal switching losses
- Very compact and lightweight design
- Patented Liquid Pin® cooling system for optimal temperature behavior and best performance
- Individual programmable motor tables for control of electric motors
- CAN interface
- User software CVI in delivery

<sup>1</sup> = Not DMC544

## Example of use

**BRUSA**

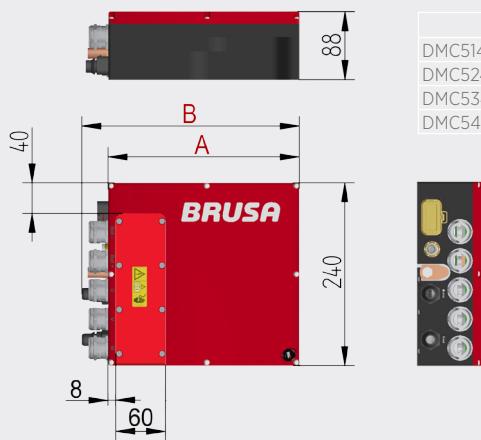

## Specifications DMC5x4

| Power supply HV and LV                                 | DMC514    | DMC524    | DMC534    | DMC544    |                 |
|--|-----------|-----------|-----------|-----------|-----------------|
| Min. input voltage Kl.15 (switch on DMC)               | 6         | 6         | 6         | 6         | V               |
| Min. input voltage Kl.15 (automatically shut down DMC) | 2         | 2         | 2         | 2         | V               |
| Range HV - input voltage for operation                 | 120 - 450 | 120 - 450 | 120 - 450 | 120 - 450 | V               |
| Min. HV - input voltage for full current output        | 200       | 200       | 200       | 200       | V               |
| X-capacity (for pre-charging HV)                       | 200       | 380       | 560       | 740       | μF              |
| Y-capacity (for dimensioning isolation guard)          | 98 + 98   | 128 + 128 | 158 + 158 | 188 + 188 | nF              |
| Recommended conductor size U, V, W, HV+, HV-           | 25        | 35        | 50        | 70        | mm <sup>2</sup> |

| Three phase output U, V, W (R, S, T)                 | DMC514 | DMC524 | DMC534 | DMC544 |     |
|--|--------|--------|--------|--------|-----|
| Continuous RMS current (IAC <sub>cont</sub> )        | 112    | 225    | 337    | 450    | A   |
| Periodic cycle with max. current 30 s 100%, 90 s 50% | 150    | 300    | 450    | 600    | A   |
| Continuous power                                     | 39     | 79     | 118    | 160    | kW  |
| Max. power   | 52     | 105    | 157    | 212    | kW  |
| Efficiency   | 0.97   | 0.97   | 0.97   | 0.97   | --- |

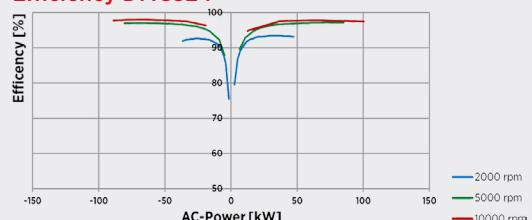

| Thermal & mechanical data  | DMC514       | DMC524       | DMC534       | DMC544       |      |
|--|--------------|--------------|--------------|--------------|------|
| Weight (inclusive coolant medium)  | 6.5          | 9.5          | 12.5         | 15.5         | kg   |
| IP- protection   | IP67         | IP67         | IP67         | IP67         | ---  |
| Coolant quantity in device   | 0.3          | 0.6          | 0.9          | 1.2          | l    |
| Outside diameter of cooling water connection pieces  | 16           | 16           | 16           | 16           | mm   |
| Coolant temperature range at input   | - 40 to + 65 | °C   |
| Coolant pressure loss @ 6 l / min, T <sub>coolant</sub> = 25°C<br>(at mixing ratio water / glycol = 50 / 50) | 70           | 120          | 150          | 180          | mbar |
| Max. coolant pressure  | 1            | 1            | 1            | 1            | bar  |
| Ambient temperature range for operation  | - 40 to + 85 | °C   |

## Dimensions

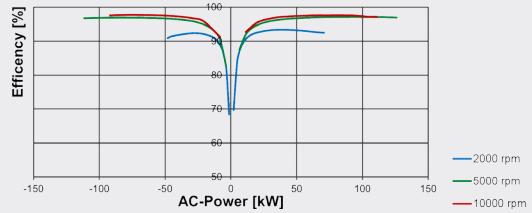

|        | A   | B   |    |
|--------|-----|-----|----|
| DMC514 | 250 | 276 | mm |
| DMC524 | 360 | 386 | mm |
| DMC534 | 470 | 496 | mm |
| DMC544 | 580 | 606 | mm |
